Accounting officer's Responsibilities and Approval

The accounting officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the unaudited annual financial statements and related financial information included in this report. It is the responsibility of the accounting officer to ensure that the unaudited annual financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period then ended. The external auditors are engaged to express an independent opinion on the unaudited annual financial statements and was given unrestricted access to all financial records and related data.

The unaudited annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The unaudited annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The accounting officer acknowledges that he is ultimately responsible for the system of internal financial control established by the municipality and place considerable importance on maintaining a strong control environment. To enable the municipality to meet these responsibilities, the accounting officer sets standards for internal control aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and all employees are required to maintain the highest ethical standards in ensuring that the municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality is on identifying, assessing, managing and monitoring all known forms of risk across the municipality. While operating risk cannot be fully eliminated, the municipality endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

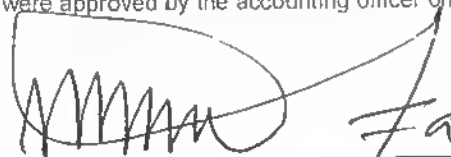

The accounting officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the unaudited annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or deficit.

The accounting officer has reviewed the municipality's cash flow forecast for the year to 30 June 2016 and, in the light of this review and the current financial position, he is satisfied that the municipality has or has access to adequate resources to continue in operational existence for the foreseeable future.

The external auditors are responsible for independently reviewing and reporting on the municipality's unaudited annual financial statements.

I certify that the salaries, allowances and benefits of Councillors, loans made to Councillors, if any, and payments made to Councillors for loss of office, if any, as disclosed in note 27 of these annual financial statements are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

The unaudited annual financial statements set out on pages 6 to 52, which have been prepared on the going concern basis, were approved by the accounting officer on 31 August 2015 and were signed on its behalf by:

Unaudited Annual Financial Statements for the year ended 30 June 2015

Audit Committee Report

We are pleased to present our report for the financial year ended 30 June 2015

Audit committee members and attendance

Greater Tubatse Local Municipality used Greater Sekhukhune District Municipality's Audit and Performance Committee until in May 2015, when an Audit & Performance Committee was appointed. The Audit Committee consists of the members listed hereunder and should meet at least 4 times per annum as per its approved terms of reference. During the current year, the new Audit Committee two (2) number of meetings were held.

Name of member & number of meetings attended

1. Adv. Letsepe Thubakgale (Chairperson) - 2/2
2. Adv. Tebogo Martin Malatji - 1/2
3. Mr. Joseph Nakedi Mpyana - 1/2
4. Mr. Siyakhuta Simetane - 1/2

Audit committee responsibility

The audit committee reports that it has complied with its responsibilities arising from section 38(10)(1) of the PFMA and Treasury Regulation 3.1.

The audit committee also reports that it has adopted appropriate formal terms of reference as its audit committee charter, has regulated its affairs in compliance with this charter and has discharged all its responsibilities as contained therein.

The effectiveness of Internal control

The system of internal controls applied by the municipality over financial and risk management is effective, efficient and transparent. In line with the PFMA and the King III Report on Corporate Governance requirements, Internal Audit provides the audit committee and management with assurance that the internal controls are appropriate and effective. This is achieved by means of the risk management process, as well as the identification of corrective actions and suggested enhancements to the controls and processes. From the various reports of the Internal Auditors, the Audit Report on the annual financial statements, and the management report of the Auditor-General South Africa, it was noted that no matters were reported that indicate any material deficiencies in the system of internal control or any deviations therefrom. Accordingly, we can report that the system of internal control over financial reporting for the period under review was efficient and effective.

Evaluation of annual financial statements

The audit committee has:

- reviewed and discussed the audited annual financial statements to be included in the annual report, with the Auditor-General and the Accounting Officer;
- reviewed the Auditor-General of South Africa's management report and management's response thereto;
- reviewed changes in accounting policies and practices;
- reviewed the entities compliance with legal and regulatory provisions;
- reviewed significant adjustments resulting from the audit.

The audit committee concur with and accept the Auditor-General of South Africa's report the annual financial statements, and are of the opinion that the audited annual financial statements should be accepted and read together with the report of the Auditor-General of South Africa.

Internal audit

The audit committee is satisfied that the internal audit function is operating effectively and that it has addressed the risks pertinent in the municipality and its audits.

Auditor-General of South Africa

The audit committee has met with the Auditor-General of South Africa to ensure that there are no unresolved issues.

Adv. Letsepe Thubakgale

Chairperson of the Audit Committee

Annual Financial Statements for the year ended 30 June 2015

Accounting Officer's Report

The accounting officer submits the report for the year ended 30 June 2015.

1. Review of activities

Main business and operations

The municipality is engaged in municipal activities such as rates, refuse and other services and operates principally in South Africa.

Net surplus of the municipality was R 22,094,378 (2014: surplus R 6,204,801).

2. Going concern

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business. Refer to Note 42.

3. Subsequent events

The accounting officer is not aware of any subsequent event after reporting date which may negatively impact on the annual financial statements except the proclamation by the President of the RSA to conduct an investigation into certain matters in respect of the affairs of the Greater Tubatse Municipality. Proclamation R 51 of 2014 as published in Government Gazette

4. Accounting officer's interest in contracts

The accounting officer did not declare any interests in contracts of the Municipality.

5. Accounting policies

The annual financial statements were prepared in accordance with the prescribed Standards of Generally Recognised Accounting Practices (GRAP) issued by the Accounting Standards Board as the prescribed framework by National Treasury.

6. Accounting officer

The accounting officer of the municipality during the year and to the date of this report are as follows

| Name | Nationality | Changes |
|---------------|-------------|-----------------------------------|
| Monyepoa M A | RSA | 1 July 2014 to 31 August 2014 |
| Moja M M | RSA | 8 September 2014 to 28 April 2015 |
| Ramaipadi M A | RSA | 14 May 2015 to 30 June 2015 |

Mr JNT Mohlala was appointed as the Municipal Manager on 1 July 2015.

Accounting Officer's Report

7. Corporate governance

General

The accounting officer is committed to business integrity, transparency and professionalism in all its activities. As part of this commitment, the accounting officer supports the highest standards of corporate governance and the ongoing development of best practice.

Councillors

The councillors:

- retains full control over the municipality, its plans and strategy;
- acknowledges its responsibilities as to strategy, compliance with internal policies, external laws and regulations, effective risk management and performance measurement, transparency and effective communication both internally and externally by the municipality;
- is of a unitary structure comprising,
 - > - Mayor
 - > - Speaker
 - > - Councillors, and
 - > - Executive councillors.

Chairperson and chief executive

The roles of the Mayor and Municipal Manager are separate, with responsibilities divided between them, so that no individual has unfettered powers of discretion. The Council and Mayor performs their oversight role and duties in terms of the prescribed legislation and delegated authorities.

Audit committee

For the last 6(six) months of the current financial year the chairperson of the audit committee was Mr K.M Ramukumba (non-executive director/ independent audit committee member) and for the first 6(six) months it was Mr A Dzuguda, who is an independent audit committee member. The committee met 4 times during the financial year to review matters necessary to fulfil its role.

The audit committee comprises of the following members appointed as a shared audit with Sekhukhune District Municipality as from the 24 January 2014. Ms S V Mabilane, Mr L. Langalibalela, Mr P.R Mnisi and Mrs S M Makinta. The term of the audit committee will expired on 25 January 2015 as per memorandum of understanding between GTM and Sekhukhune District Municipality.

8. Bankers

The municipality banks primarily with First National Bank Limited.

9. Auditors

Auditor General South Africa will continue in office for the next financial period

Annual Financial Statements for the year ended 30 June 2015

Accounting Policies

1. Presentation of Annual Financial Statements

The annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act (Act 56 of 2003).

These annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention as the basis of measurement, unless specified otherwise. They are presented in South African Rand

Assets, liabilities, revenues and expenses were not offset, except where offsetting is either required or permitted by a Standard of GRAP.

A summary of the significant accounting policies, which have been consistently applied in the preparation of these annual financial statements, are disclosed below

1.1 Significant judgements and sources of estimation uncertainty

In preparing the annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the annual financial statements and related disclosures. Use of available information and the application of judgement are inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the annual financial statements. Significant judgements include:

Trade receivables

The municipality assesses its trade receivables, for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in surplus or deficit, the municipality makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

Impairment of trade and other receivables

The calculation in respect of the impairment of debtors is based on an assessment of the extent to which debtors have defaulted on payments already due, and an assessment of their ability to make payments based on their payment history. Debtors will be analysed in terms of concentrations of individual risk classes showing each individual ageing

Provisions

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions are included in note 16.

The cost of defined benefit pension plans and other employment medical benefits is determined using actuarial valuations.

The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty. Additional information is disclosed in note 6.

Classification as investment property

The municipality has reviewed its property portfolio and determined which items of land and buildings are held to earn rental revenue or for capital appreciation. Land and buildings fulfilling these requirements have been classified as investment property, whilst the remainder of the portfolio has either been classified as property, plant and equipment or inventory depending on management's intention in dealing with these properties.

Depreciation and carrying value of items of property, plant and equipment

The estimation of the useful lives of assets is based on management's judgment. Management considers the impact of technology, availability of capital funding, service requirements, and required return on assets to determine the optimum useful life expectation, where appropriate. The estimation of residual values of assets is also based on management's judgment whether the assets will be sold or used to the end of their useful lives, and what their condition will be at that time.

Greater Tubatse Municipality

(Registration number Lim 475)

Trading as Greater Tubatse LM

Annual Financial Statements for the year ended 30 June 2015

Accounting Policies

1.2 Investment property

Investment property is initially recognised at cost. Transaction costs are capitalised to the initial cost.

Subsequent to initial measurement investment property is measured at fair value.

A gain or loss arising from a change in fair value is included in net surplus or deficit for the period in which it arises

The fair value of investment property reflects estimated market conditions at the reporting date whilst provisional amounts reflect the amounts determined using a reasonable basis such as a valuation roll.

Once the entity becomes able to measure reliably the fair value of an investment property under construction that has previously been measured at cost, it measures that property at its fair value. Once construction of that property is complete, it is presumed that fair value can be measured reliably. If this is not the case, the property is accounted for using the cost model in accordance with the accounting policy on Property, plant and equipment.

Compensation from third parties for investment property that was impaired, lost or given up is recognised in surplus or deficit when the compensation becomes receivable.

Property interests held under operating leases are classified and accounted for as investment property in the following circumstances:

1.3 Property, plant and equipment

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use

Property, plant and equipment are initially measured at cost or fair value. Subsequent measurement of property, plant and equipment is measured at fair value.

Property, plant and equipment are carried at cost or fair value less accumulated depreciation and any impairment losses

Property, plant and equipment are depreciated on the straight line basis over their expected useful lives to their estimated residual value.

The useful lives of items of property, plant and equipment have been assessed as follows.

| Item | Average useful life |
|-------------------------|---------------------|
| Buildings | 30 |
| Furniture and fixtures | 5-10 |
| Motor vehicles | 7-10 |
| Office equipment | 5-7 |
| IT equipment | 5 |
| Emergency equipment | 5-10 |
| Refuse tankers | 5-10 |
| Infrastructure | 5-200 |
| Roads and stormwater | 5-150 |
| Refuse | 20-50 |
| Community | 5-100 |
| Buildings | 20-100 |
| Recreational facilities | 20-30 |
| Security | 5-10 |
| Halls | 20-30 |
| Libraries | 20-30 |
| Parks and gardens | 15-20 |
| Other assets | 15-30 |

Greater Tubatse Municipality

(Registration number Lim 475)

Trading as Greater Tubatse LM

Annual Financial Statements for the year ended 30 June 2015

Accounting Policies

1.3 Property, plant and equipment (continued)

| | |
|-------------------------------------|--------|
| Other property, plant and equipment | 2-100 |
| Specialist vehicles | 10-35 |
| Other vehicles | 5-30 |
| Office furniture | 3-15 |
| Furniture and fittings | 5-20 |
| Watercraft | 15-30 |
| Bins and containers | 5-15 |
| Specialised plant and equipment | 5-35 |
| Other plant and equipment | 2-25 |
| Landfill sites | 20-100 |
| Quarries | 20-100 |
| Emergency equipment | 5-25 |
| Computer equipment | 3-15 |
| Land | 1000 |

The residual value, and the useful life and depreciation method of each asset are reviewed at the end of each reporting date. If the expectations differ from previous estimates, the change is accounted for as a change in accounting estimate.

Reviewing the useful life of an asset on an annual basis does not require the entity to amend the previous estimate unless expectations differ from the previous estimate.

The depreciation charge for each period is recognised in surplus or deficit unless it is included in the carrying amount of another asset.

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

1.4 Intangible assets

An asset is identifiable if it either:

- is separable, i.e. is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, identifiable assets or liability, regardless of whether the entity intends to do so; or
- arises from binding arrangements (including rights from contracts), regardless of whether those rights are transferable or separable from the municipality or from other rights and obligations.

A binding arrangement describes an arrangement that confers similar rights and obligations on the parties to it as if it were in the form of a contract.

An intangible asset is recognised when:

- it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality; and
- the cost or fair value of the asset can be measured reliably.

The municipality assesses the probability of expected future economic benefits or service potential using reasonable and supportable assumptions that represent management's best estimate of the set of economic conditions that will exist over the useful life of the asset.

Where an intangible asset is acquired through a non-exchange transaction, its initial cost at the date of acquisition is measured at its fair value as at that date.

Expenditure on research (or on the research phase of an internal project) is recognised as an expense when it is incurred.

Greater Tubatse Municipality

(Registration number Lim 475)

Trading as Greater Tubatse LM

Annual Financial Statements for the year ended 30 June 2015

Accounting Policies

1.4 Intangible assets (continued)

An intangible asset arising from development (or from the development phase of an internal project) is recognised when:

- it is technically feasible to complete the asset so that it will be available for use or sale
- there is an intention to complete and use or sell it.
- there is an ability to use or sell it.
- it will generate probable future economic benefits or service potential.
- there are available technical, financial and other resources to complete the development and to use or sell the asset.
- the expenditure attributable to the asset during its development can be measured reliably.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result the asset is tested for impairment and the remaining carrying amount is amortised over its useful life

Internally generated brands, mastheads, publishing titles, customer lists and items similar in substance are not recognised as intangible assets

Internally generated goodwill is not recognised as an intangible asset

Amortisation is provided to write down the intangible assets, on a straight line basis, to their residual values as follows:

| Item | Useful life |
|-------------------|-------------|
| Computer software | 3-10 years |

Intangible assets are derecognised:

- on disposal; or
- when no future economic benefits or service potential are expected from its use or disposal.

1.5 Financial Instruments

Classification

The municipality classifies financial assets and financial liabilities into the following categories:

- Cash and cash equivalents
- Trade receivables
- Financial assets measured at amortised cost

Classification depends on the purpose for which the financial instruments were obtained / incurred and takes place at initial recognition. Classification is re-assessed on an annual basis.

Initial recognition and measurement

Financial instruments are initially recognised at fair value including any transactions costs.

Subsequent measurement

Financial instruments at fair value through surplus or deficit are subsequently measured at fair value, with gains and losses arising from changes in fair value being included in surplus or deficit for the period.

Financial liabilities at amortised cost are subsequently measured at amortised cost, using the effective interest method

Impairment of financial assets

At each end of the reporting period the municipality assesses all financial assets, other than those at fair value through surplus or deficit, to determine whether there is objective evidence that a financial asset or group of financial assets has been impaired.

For amounts due to the municipality, significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy and default of payments are all considered indicators of impairment.

Greater Tubatse Municipality

(Registration number LIm 475)

Trading as Greater Tubatse LM

Unaudited Annual Financial Statements for the year ended 30 June 2015

Accounting Policies

1.5 Financial instruments (continued)

Impairment losses are recognised in surplus or deficit.

Impairment losses are reversed when an increase in the financial asset's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to the restriction that the carrying amount of the financial asset at the date that the impairment is reversed shall not exceed what the carrying amount would have been had the impairment not been recognised.

Reversals of impairment losses are recognised in surplus or deficit except for equity investments classified as available-for-sale.

Financial assets impaired through use of an allowance account are recognised in surplus or deficit within operating expenses, when such assets are written off, the write off is made against the relevant allowance account. Subsequent recoveries of amounts previously written off are credited against operating expenses.

Financial Instruments designated as at fair value through surplus or deficit

All financial Instruments are initially measured at fair value. The financial instruments are subsequently recognised at fair value through profit and loss.

Receivables from exchange transactions

Receivables from exchange transactions comprise of:

- Trade debtors

Trade receivables are measured at initial recognition at fair value, and are subsequently measured at amortised cost using the effective interest rate method. Appropriate allowances for estimated irrecoverable amounts are recognised in surplus or deficit when there is objective evidence that the asset is impaired. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 90 days overdue) are considered indicators that the trade receivable is impaired. The allowance recognised is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the effective interest rate computed at initial recognition.

The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the deficit is recognised in surplus or deficit within operating expenses. When a trade receivable is uncollectible, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are credited against operating expenses in surplus or deficit.

Trade and other receivables are classified as loans and receivables.

Payables from exchange transactions

Payables from exchange transactions comprise of:

- Trade payables
- Payments in advance

Trade payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. These are initially and subsequently measured at amortised cost, using the effective interest method.

For the purposes of the Cash Flow Statement, cash and cash equivalents comprise cash on hand and deposits held on call with banks, net of bank overdrafts. Bank overdrafts are recorded based on the facility utilised.

Greater Tubatse Municipality

Trading as Greater Tubatse LM

Annual Financial Statements for the year ended 30 June 2015

Accounting Policies

1.5 Financial instruments (continued)

Gains and losses

A gain or loss arising from a change in a financial asset or financial liability is recognised as follows:

For financial assets and financial liabilities carried at amortised cost, a gain or loss is recognised in surplus or deficit when the financial asset or financial liability is derecognised or impaired, and through the amortisation process.

Derecognition

Financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised where:

the rights to receive cash flows from the asset have expired;

the municipality has transferred its rights to receive cash flows from the asset and either

- has transferred substantially all the risks and rewards of the asset, or
- has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires

1.6 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership

Finance leases - lessee

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

The discount rate used in calculating the present value of the minimum lease payments is the interest rate implicit in the lease.

Minimum lease payments are apportioned between the finance charge and reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of on the remaining balance of the liability.

Any contingent rents are expensed in the period in which they are incurred.

Operating leases - lessor

Operating lease revenue is recognised as revenue on a straight-line basis over the lease term.

Initial direct costs incurred in negotiating and arranging operating leases are added to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the lease revenue.

The aggregate cost of incentives is recognised as a reduction of rental revenue over the lease term on a straight-line basis

Operating leases - lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

Annual Financial Statements for the year ended 30 June 2015

Accounting Policies

1.7 Inventories

Inventories are initially measured at cost except where inventories are acquired through a non-exchange transaction, then their costs are their fair value as at the date of acquisition.

Subsequently inventories are measured at the lower of cost and net realisable value

Inventories are measured at the lower of cost and current replacement cost where they are held for:
distribution at no charge or for a nominal charge; or
consumption in the production process of goods to be distributed at no charge or for a nominal charge.

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution

Current replacement cost is the cost the municipality incurs to acquire the asset on the reporting date.

The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

The cost of inventories of items that are not ordinarily interchangeable and goods or services produced and segregated for specific projects is assigned using specific identification of the individual costs.

The cost of inventories is assigned using the first-in, first-out (FIFO) formula. The same cost formula is used for all inventories having a similar nature.

When inventories are sold, the carrying amounts of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expenses are recognised when the goods are distributed, or related services are rendered. The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

1.8 Impairment of cash-generating assets

Property, plant and equipment are reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment charged to the Statement of Financial Performance is the excess of the carrying value over the recoverable amount. An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of impairment is recognised in the Statement of Financial Performance.

Cash-generating assets are those assets held by the municipality with the primary objective of generating a commercial return. When an asset is deployed in a manner consistent with that adopted by a profit-orientated entity, it generates a commercial return.

Criteria developed by the municipality to distinguish cash-generating assets from non-cash-generating assets are as follow:

Cash generating assets are assets held with the primary objective of generating commercial return.

Non-cash generating assets are assets other than cash-generating assets.

Reversal of impairment loss

The municipality assess at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a cash-generating asset may no longer exist or may have decreased. If any such indication exists, the entity estimates the recoverable amount of that asset.

An impairment loss recognised in prior periods for a cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

Greater Tubatse Municipality

(Registration number Lim 475)

Trading as Greater Tubatse LM

Annual Financial Statements for the year ended 30 June 2015

Accounting Policies

1.8 Impairment of cash-generating assets (continued)

A reversal of an impairment loss for a cash-generating asset is recognised immediately in surplus or deficit.

Any reversal of an impairment loss of a revalued cash-generating asset is treated as a revaluation increase.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

1.9 Employee benefits

Short-term employee benefits

Short-term employee benefits are employee benefits (other than termination benefits) that are due to be settled within twelve months after the end of the period in which the employees render the related service.

Short-term employee benefits include items such as:

- wages, salaries and social security contributions;
- short-term compensated absences (such as paid annual leave and paid sick leave) where the compensation for the absences is due to be settled within twelve months after the end of the reporting period in which the employees render the related employee service;
- bonus, incentive and performance related payments payable within twelve months after the end of the reporting period in which the employees render the related service; and
- non-monetary benefits (for example, medical care, and free or subsidised goods or services such as housing, cars and cellphones) for current employees.

The entity recognises the expected cost of bonus, incentive and performance related payments when the entity has a present legal or constructive obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made. A present obligation exists when the entity has no realistic alternative but to make the payments.

Post-employment benefits: Defined contribution plans

Defined contribution plans are post-employment benefit plans under which an entity pays fixed contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods.

When an employee has rendered service to the entity during a reporting period, the entity recognises the contribution payable to a defined contribution plan in exchange for that service:

- as a liability (accrued expense), after deducting any contribution already paid. If the contribution already paid exceeds the contribution due for service before the reporting date, an entity recognises that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the contribution in the cost of an asset.

Where contributions to a defined contribution plan do not fall due wholly within twelve months after the end of the reporting period in which the employees render the related service, they are discounted. The rate used to discount reflects the time value of money. The currency and term of the financial instrument selected to reflect the time value of money is consistent with the currency and estimated term of the obligation.

Annual Financial Statements for the year ended 30 June 2015

Accounting Policies

1.9 Employee benefits (continued)

Post-employment benefits: Defined benefit plans

Defined benefit plans are post-employment benefit plans other than defined contribution plans.

Actuarial gains and losses comprise experience adjustments (the effects of differences between the previous actuarial assumptions and what has actually occurred) and the effects of changes in actuarial assumptions. In measuring its defined benefit liability the entity recognise actuarial gains and losses in surplus or deficit in the reporting period in which they occur.

Current service cost is the increase in the present value of the defined benefit obligation resulting from employee service in the current period.

Interest cost is the increase during a period in the present value of a defined benefit obligation which arises because the benefits are one period closer to settlement.

Past service cost is the change in the present value of the defined benefit obligation for employee service in prior periods, resulting in the current period from the introduction of, or changes to, post-employment benefits or other long-term employee benefits. Past service cost may be either positive (when benefits are introduced or changed so that the present value of the defined benefit obligation increases) or negative (when existing benefits are changed so that the present value of the defined benefit obligation decreases). In measuring its defined benefit liability the entity recognise past service cost as an expense in the reporting period in which the plan is amended.

The cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at the end of each reporting period. Actuarial gains and losses are recognised in full in the year they are incurred.

The municipality provides certain post-retirement medical benefits by funding the medical aid contributions of certain retired members of the municipality. According to the rules of all of the medical aid funds with which the municipality is associated, a member is entitled to remain a continued member of the medical aid fund on retirement, in which case the municipality is liable for a certain portion of the medical aid membership fee. These medical aid funds are classified as defined benefit plans.

The current service cost is recognised as a period expense in the statement of financial performance and is matched to the benefit received during the working life of the employee. The current service cost includes the expense for benefits received by the employee currently in service and the cost of funding the employee when no longer in service. The expense for the year is included in the employee benefits expense in the statement of financial performance.

Where some of the employees are not members of any qualifying medical aid scheme as at reporting date, the municipality accrues 50% of such potential liability. This management estimate is meant to cater for employees who are likely to join the qualifying medical schemes in future but before retirement.

Other long-term employee benefits

Long service awards are provided to employees who achieve certain pre-determined milestones of service within the municipality. The cost for each employee is computed at each reporting date based on the probability of being employed at each service award date, taking into account the assumed rates of withdrawal, early retirement and death. On determining this liability due allowance is made for future salary increases. Actuarial gains and losses are recognised in full in the year they are incurred.

The municipality's net obligation in respect of long service awards is the amount of future benefit that employees have earned in return for their service in the current and prior periods. The benefit is discounted to determine its present value.

Trading as Greater Tubatse LM

Annual Financial Statements for the year ended 30 June 2015

Accounting Policies

1.10 Leave

The municipality provides employees with time off from work for a variety of reasons. Leave days granted by an employer can either accumulate from one period to the next.

Leave days accumulate from one period to the next. The municipality recognises a liability and expense for accumulating leave as and when employees render services that entitle them to those leave days. The amount of the liability and expense is determined as the additional amount an entity is required to pay as a result of the unused leave days owing to employees at the end of the reporting period.

1.11 Provisions and contingencies

Provisions are recognised when:

- the municipality has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

Where the effect of time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the municipality settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement does not exceed the amount of the provision.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the obligation.

A provision is used only for expenditures for which the provision was originally recognised.

Provisions are not recognised for future operating deficits.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in note 39.

Decommissioning, restoration and similar liability

Changes in the measurement of an existing decommissioning, restoration and similar liability that result from changes in the estimated timing or amount of the outflow of resources embodying economic benefits or service potential required to settle the obligation, or a change in the discount rate, is accounted for as follows:

If the related asset is measured using the cost model:

- changes in the liability is added to, or deducted from, the cost of the related asset in the current period
- the amount deducted from the cost of the asset does not exceed its carrying amount. If a decrease in the liability exceeds the carrying amount of the asset, the excess is recognised immediately in surplus or deficit.
- if the adjustment results in an addition to the cost of an asset, the entity consider whether this is an indication that the new carrying amount of the asset may not be fully recoverable. If there is such an indication, the entity test the asset for impairment by estimating its recoverable amount or recoverable service amount, and account for any impairment loss, in accordance with the accounting policy on impairment of assets as described in accounting policy 1.8.

Accounting Policies

1.11 Provisions and contingencies (continued)

If the related asset is measured using the revaluation model:

changes in the liability alter the revaluation surplus or deficit previously recognised on that asset, so that:

- a decrease in the liability is credited directly to revaluation surplus in net assets, except that it is recognised in surplus or deficit to the extent that it reverses a revaluation deficit on the asset that was previously recognised in surplus or deficit; and
- an increase in the liability is recognised in surplus or deficit, except that it is debited directly to revaluation surplus in net assets to the extent of any credit balance existing in the revaluation surplus in respect of that asset;

in the event that a decrease in the liability exceeds the carrying amount that would have been recognised had the asset been carried under the cost model, the excess is recognised immediately in surplus or deficit;

a change in the liability is an indication that the asset may have to be revalued in order to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the reporting date. Any such revaluation is taken into account in determining the amounts to be taken to surplus or deficit and net assets. If a revaluation is necessary, all assets of that class is revalued; and

the Standard of GRAP on Presentation of Financial Statements requires disclosure on the face of the statement of changes in net assets of each item of revenue or expense that is recognised directly in net assets. In complying with this requirement, the change in the revaluation surplus arising from a change in the liability is separately identified and disclosed as such.

The adjusted depreciable amount of the asset is depreciated over its useful life. Therefore, once the related asset has reached the end of its useful life, all subsequent changes in the liability is recognised in surplus or deficit as they occur. This applies under both the cost model and the revaluation model.

The periodic unwinding of the discount is recognised in surplus or deficit as a finance cost as it occurs.

1.12 Revenue

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners.

An exchange transaction is one in which the municipality receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of goods, services or use of assets) to the other party in exchange.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Revenue from non-exchange transactions comprises of:

Taxes; and

Transfers (whether cash or non-cash), including grants, debt forgiveness, fines, bequests, gifts, donations, and goods and services in kind.

Sale of goods

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- the municipality has transferred to the purchaser the significant risks and rewards of ownership of the goods,
- the municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold,
- the amount of revenue can be measured reliably,
- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Annual Financial Statements for the year ended 30 June 2015

Accounting Policies

1.12 Revenue (continued)

Rendering of services

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the reporting date. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- the amount of revenue can be measured reliably,

- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality;

- the stage of completion of the transaction at the reporting date can be measured reliably, and

- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably

Interest

Revenue arising from the use by others of entity assets yielding interest, royalties and dividends is recognised when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and

- The amount of the revenue can be measured reliably.

Interest is recognised, in surplus or deficit, using the effective interest rate method

Service fees included in the price of the product are recognised as revenue over the period during which the service is performed

1.13 Service charges

Service charges relating to refuse removal are recognised on a monthly basis by applying the approved tariff to each property receiving services. Tariffs are determined per category of property and are levied monthly based on the number of refuse containers on each property, regardless of whether or not all containers are emptied during the month

Fines

Fines are recognised as revenue when the receivable meets the definition of an asset and satisfies the criteria for recognition as an asset.

Assets arising from fines are measured at the best estimate of the inflow of resources to the municipality.

Where the municipality collects fines in the capacity of an agent, the fine will not be revenue of the collecting entity.

Gifts and donations, including goods in-kind

Gifts and donations, including goods in kind, are recognised as assets and revenue when it is probable that the future economic benefits or service potential will flow to the municipality and the fair value of the assets can be measured reliably

Conditional grants and receipts

Revenue received from conditional grants, donations and funding are recognised as revenue to the extent that the municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. To the extent that the criteria, conditions or obligations have not been met a liability is recognised.

1.14 Consumer deposits

Consumer deposits are charged when new water and/or electricity accounts are opened except for owner occupied proportions. The amounts vary per type of consumer and are approved by Council as part of the tariff structure

1.15 Borrowing costs

Borrowing costs are interest and other expenses incurred by an entity in connection with the borrowing of funds

Qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use of sale

Greater Tubatse Municipality

Accounting Policies

1.15 Borrowing costs (continued)

Borrowing costs are recognised as an expense in the period in which they are incurred.

1.16 Comparative figures

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

1.17 Unauthorised expenditure

Unauthorised expenditure means:

- overspending of a vote or a main division within a vote; and
- expenditure not in accordance with the purpose of a vote or, in the case of a main division, not in accordance with the purpose of the main division.

All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.18 Fruitless and wasteful expenditure

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.19 Irregular expenditure

Irregular expenditure as defined in section 1 of the MFMA is expenditure other than unauthorised expenditure, incurred in contravention of or that is not in accordance with a requirement of any applicable legislation, including -

- (a) this Act; or
- (b) the State Tender Board Act, 1968 (Act No. 86 of 1968), or any regulations made in terms of the Act; or
- (c) any provincial legislation providing for procurement procedures in that provincial government

Irregular expenditure that was incurred and identified during the current financial and which was condoned before year end and/or before finalisation of the financial statements must also be recorded appropriately in the irregular expenditure register. In such an instance, no further action is also required with the exception of updating the note to the financial statements.

Irregular expenditure that was incurred and identified during the current financial year and for which condonement is being awaited at year end must be recorded in the irregular expenditure register. No further action is required with the exception of updating the note to the financial statements.

Where irregular expenditure was incurred in the previous financial year and is only condoned in the following financial year, the register and the disclosure note to the financial statements must be updated with the amount condoned.

Irregular expenditure that was incurred and identified during the current financial year and which was not condoned by the National Treasury or the relevant authority must be recorded appropriately in the irregular expenditure register. If liability for the irregular expenditure can be attributed to a person, a debt account must be created if such a person is liable in law. Immediate steps must thereafter be taken to recover the amount from the person concerned. If recovery is not possible, the accounting officer or accounting authority may write off the amount as debt impairment and disclose such in the relevant note to the financial statements. The irregular expenditure register must also be updated accordingly. If the irregular expenditure has not been condoned and no person is liable in law, the expenditure related thereto must remain against the relevant programme/expenditure item, be disclosed as such in the note to the financial statements and updated accordingly in the irregular expenditure register.

Greater Tubatse Municipality

Annual Financial Statements for the year ended 30 June 2015

Accounting Policies

1.19 Irregular expenditure (continued)

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No 56 of 2003), the Municipal Systems Act (Act No.32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the economic entity's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.20 Related parties

The municipality operates in an economic sector currently dominated by entities directly or indirectly owned by the South African Government. As a consequence of the constitutional independence of the three spheres of government in South Africa, only entities within the national sphere of government are considered to be related parties

Management are those persons responsible for planning, directing and controlling the activities of the municipality, including those charged with the governance of the municipality in accordance with legislation, in instances where they are required to perform such functions.

Close members of the family of a person are considered to be those family members who may be expected to influence, or be influenced by, that management in their dealings with the municipality.

Only transactions with related parties not at arm's length or not in the ordinary course of business are disclosed.

1.21 Events after reporting date

Events after reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date);
- and
- those that are indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

The municipality will adjust the amount recognised in the financial statements to reflect adjusting events after the reporting date once the event occurred.

The municipality will disclose the nature of the event and an estimate of its financial effect or a statement that such estimate cannot be made in respect of all material non-adjusting events, where non-disclosure could influence the economic decisions of users taken on the basis of the financial statements

1.22 Prior period error

Changes in accounting policies due to adoption of newly effective Standards of GRAP have been applied retrospectively in accordance with GRAP 3 requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the change in policy or where allowed transitional provisions had been adopted. In such cases the municipality would restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable.

Changes in accounting estimates are applied prospectively in accordance with GRAP 3 requirements. Details of changes in estimates are disclosed in the notes to the annual financial statements where applicable.

Errors are corrected retrospectively in the period in which the error has occurred in accordance with GRAP 3 requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the error. In such cases the municipality would restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable.

1.23 Value added tax

The municipality accounts for Value Added Tax on a payment basis in accordance with section 15(2)(a) of the VAT Act (Act No 89 of 1991). The municipality is liable to account for VAT at the standard rate (14%) in terms of section 7 (1) (a) of the VAT Act in respect of the supply of goods or services, except where supplies are specifically zero-rated in terms of section 11, exempted in terms of section 12 of the VAT Act or are scoped out for VAT purposes. The municipality accounts for VAT on a monthly basis.

| Current service cost | 1,356,000 | 2,742,000 |
| Interest cost | 1,151,000 | 1,460,000 |
| Actuarial (gains)/losses | (8,816,000) | (3,068,000) |
| Curtailment | - | (19,000) |
| Benefits paid | (24,000) | - |
| | (6,333,000) | 1,115,000 |

Calculation of actuarial gains and losses

| | | |
|---------------------------------------|-------------|-------------|
| Actuarial (gains) losses – Obligation | (8,816,000) | (3,068,000) |
|---------------------------------------|-------------|-------------|

Key assumptions used

Assumptions used at the reporting date:

| | | |
|---------------------------------------|--------|--------|
| Discount rates used | 7.89 % | 7.25 % |
| Consumer Price Inflation (CPI) | 6.14 % | 6.24 % |
| Normal retirement age | 65 | 65 |
| Expected increase in healthcare costs | 7.14 % | 6.75 % |
| Average retirement age | 63 | 63 |
| Net effective discount rate | 0.70 % | - % |

Other assumptions

Assumed salaries cost trend rates have a significant effect on the amounts recognised in surplus or deficit. A one percentage point change in assumed salaries cost trend rates would have the following effects:

| | One percentage point increase | One percentage point decrease |
|---|-------------------------------|-------------------------------|
| Effect on the aggregate of the service cost and interest cost | 4,028,000 | 4,226,000 |
| Effect on defined benefit obligation | 20,773,000 | 19,870,000 |

Amounts for the current and previous four years are as follows.

| | 2015 R | 2014 R | 2013 R | 2012 R | 2011 R |
|----------------------------|------------|------------|------------|------------|------------|
| Defined benefit obligation | 14,931,000 | 21,264,000 | 20,149,000 | 15,121,000 | 12,189,000 |

Defined contribution plan

It is the policy of the municipality to provide retirement benefits to all its employees as per employee defined benefits on their specific relevant contracts.

The municipality is under no obligation to cover any unfunded benefits.

| Current liabilities | 2,183,722 | 2,004,394 |
| | 2,212,043 | 4,216,436 |

It is municipality policy to lease plant and equipment under finance leases.

The average lease term was 3-5 years and the average effective borrowing rate was 9.25%.

Interest rates are fixed at the contract date. All leases have fixed repayments and no arrangements have been entered into for contingent rent.

The municipality's obligations under finance leases are secured by the lessor's charge over the leased assets. Refer to note 4

| Churches | 23,735,000 | 23,735,000 |
| | 5,795,650,600 | 5,795,650,600 |

Valuations on land and buildings are performed every 4 years. The last general valuation came into effect on 1 July 2011. Interim valuations are processed on a need basis to take into account changes in individual property values due to alterations and subdivisions.

A general rate is applied to property valuations to determine assessment rates. Rebates of 30% are granted to residential and state property owners.

Rates are levied on an annual basis and paid on monthly basis with the final date for payment being 30 June 2015. Interest at prime plus 1% per annum and a collection fee of is levied on rates outstanding two months after due date.

The new general valuation was implemented on 01 July 2011, the municipality has requested an extension on the validity of the valuation roll from the office of the MEC for local government. The extension was granted.

22. Service charges

Annual Financial Statements for the year ended 30 June 2015

Notes to the Annual Financial Statements

| Figures in Rand | 2015 | 2014 |
|--|--------------------|--------------------|
| 39. Contingent Liabilities and Assets | | |
| The following are the cases lodged within court: | | |
| Contingent liabilities | | |
| Mopicon vs GTM | 2,571,001 | 2,571,001 |
| The supplier was appointed to construct Bugersfort main road but they failed to deliver on the specifics and GTM terminated their contract in 2010. The supplier then sued GTM for R2,571,001 for unlawful termination of contract. Ongoing case which is anticipated to be wrapped up in April 2016. | | |
| Justice Kgoete vs GTM | - | - |
| Justice Kgoete applied for traffic manager position but was not appointed as one. He sued the municipality through labour but did not appear on the court order dates. He is currently paying the municipality R3,000 (In total R75,000) for not appearing at the court on the dates that were set. Trial date has not been set yet. | | |
| Zwahuli Developers vs GTM | - | - |
| Zwahuli Developers bid for a tender and alleged that the municipality awarded it to another service provider unfairly. They requested information from the municipality under access to information act. This information was provided to them in July 2015 and to date the matter has not been taken to court. | | |
| SAMWU vs COGHSTA & OTHERS | - | - |
| Urgent Application against the extension of Acting role of the Municipal Manager in July 2014. The labour court ruled in favour of the Municipality in July 2014. | | |
| Loncon Developments (Pty) Ltd vs GTM | 89,000,000 | 89,000,000 |
| Loncon Development signed a land availability agreement with GTM in 1999 to build RDP houses. These land was then later occupied by residents illegally. Loncon Development sued the Municipality for R89,000,000 in 2012 for failure to protect the land against the illegal occupant. The matter is still ongoing. | | |
| Thushang Construction vs GTM | 2,999,309 | 2,999,309 |
| In 2000 Thushang Construction was appointed to construct a stadium at Praktiseer township. The service provider could finalise the project and the consultant terminated their contract in 2000. In 2008 the service provider sued the municipality through the high court for R2,999,308.72 compensation of unfair termination. The matter was finalised in March 2015 and judgement has been reserved. | | |
| Limpopo Road Binders v GTM | 1,835,524 | 1,835,524 |
| In 2008 Limpopo Road Binders was appointed to construct a water drainage system at GaMapodile village. At the time of service the municipality was undergoing cashflow crisis and service provider entered into a cession agreement with the supplier of the material to used in order to get the material and commence the work. The agreement was that the supplier of the material will be paid by the directly by the municipality, however the service provider later sued for the value of the materials amounting R1,835,524.03. The matter is still ongoing. | | |
| Amelia Mashego v GTM | 7,566,715 | 7,566,715 |
| In 2008 the municipality offered Amelia Mashego employment at a salary notch above the level that she was appointed for. She sued the municipality through high court for R7,566,714.60 to compensate her for the loss of income between then and her retirement date based on the salary notch she was offered. The matter is still ongoing. | | |
| Munsoft (Pty) Ltd vs GTM | 3,027,002 | 3,027,002 |
| Service provider was appointed by the district municipality to assist local municipalities in preparation of annual financial statements in 2013. They municipality did not pay the service provider as it believes that the district should pay the service provider. The service provider then sued the municipality for the services rendered amounting to R3027 002.38 through the high court. This matter is still ongoing. | | |

40. Related parties

Relationships

Directors

Refer to note 26

Councillors

Refer to note 27

The Councillors and Directors are related parties and their transactions are included in note 26 and 27. The municipality has various processes in place to identify and note any related party transactions. These processes range from disclosure by bidders on the bid documents (MB4) to maintenance of a conflict of interest register. For councillors, the disclosure register is kept in the Office of the Speaker whilst for other senior managers it is kept by the Corporate Services Directorate.

Councillors and Directors are related parties and their transactions are included in the notes to the financial statements.

Annual Financial Statements for the year ended 30 June 2015

Notes to the Annual Financial Statements

| Figures in Rand | 2015 | 2014 |
|---|------|-------------------|
| 41. Prior period errors (continued) | | |
| 1.12 Operating lease obligation | | |
| Balance as previously stated - 30 June 2014 | | - |
| Correction of prior period error | | |
| Recognition of operating lease liability | | 13,594,141 |
| Accounting for accrual on the lease expense | | 2,683,247 |
| Restated balance as at 30 June 2014 | | <u>16,277,388</u> |

42. Going concern

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

43. Unauthorised expenditure

| | | |
|--|-------------------|-------------------|
| Opening balance | 77,687,230 | 77,687,230 |
| Unauthorised expenditure - on cash votes | 1,423,238 | - |
| | <u>79,110,468</u> | <u>77,687,230</u> |

Current year unauthorised expenditure relates to overspending of remuneration to councillors and employee cost due to the upper limits salary determination being promulgated late.

Council has referred this amount to the MPAC for investigation and subsequent ratification

44. Fruitless and wasteful expenditure

| | | |
|------------------------------------|------------------|----------------|
| Opening balance | 318,123 | 77,319 |
| Fruitless and wasteful expenditure | 1,531,202 | 240,804 |
| | <u>1,849,325</u> | <u>318,123</u> |

Included in the current year is an amount of R1,3 million for interest charged on invoices for the Operation Mabune Project. The grant money for this project was received late and thus the invoices were paid late incurring the interest penalty.

Council has referred this amount to the MPAC for investigation and subsequent ratification

45. Irregular expenditure

| | | |
|--------------------------|--------------------|--------------------|
| Opening balance | 121,760,963 | 87,157,244 |
| Expenditure current year | 16,058,399 | 34,603,719 |
| | <u>137,819,362</u> | <u>121,760,963</u> |

Council has referred this amount to the MPAC for investigation and subsequent ratification

Details of irregular expenditure – current year

| | | |
|--------------------------------|--|------------------|
| Non compliance SCM regulations | Disciplinary steps taken/criminal proceedings Currently under investigation | <u>1,297,086</u> |
|--------------------------------|--|------------------|
